IAP Companion Meeting Friday 30th May 2025

Lung Pathology

Convenors

Edwina Duhig

Sullivan Nicolaides Pathology, John Flynn Hospital, Tugun, QLD, Australia

Sonja Klebe

Flinders Medical Centre, Adelaide, SA, Australia

Chair

Wendy Cooper

Tissue Pathology and Diagnostic Oncology at Royal Prince Alfred Hospital in Sydney, University of Sydney and University of Western Sydney, NSW, Australia.

Lecture

Elizabeth Salisbury

Institute of Clinical Pathology and Medical Research, Westmead Hospital, Westmead, NSW, Australia

An update on NUT tumours

No slide submitted

Lecture

Vanathi Sivasubramaniam

SydPath, St Vincent's Hospital, Darlinghurst, Sydney, NSW, Australia

Advancements in Lung Transplantation: Exploring the Latest Pathological Insights and ongoing Challenges

No slide submitted

Lecture

Wade Barrett

SydPath – St Vincent's Pathology, Sydney, NSW, Australia

Vital Organs Pathology. Is the history as useful as the diagnosis?

No slide submitted

Case Presentation

Yelise Foon

Westmead ICPMR Tissue Pathology and Diagnostic Oncology, Sydney, NSW, Australia

A nod to nodules: A case of pulmonary epithelioid haemangioendothelioma

No slide submitted

Case Presentation

Nicky Kingston

Auckland City Hospital, Auckland, New Zealand

Small cell carcinoma arising in an atypical carcinoid tumour, in a never smoker

No slide submitted

Case Presentation

Rhoda Cameron

Austin Health Pathology, Austin Hospital, VIC, Australia

Help from histiocytes – An unusual pulmonary presentation of a systemic disease

No slide submitted

Case Presentation

Andrew Dettrick

Sunshine Coast University Hospital and Sullivan Nicolaides Pathology, Sunshine Coast, QLD, Australia

A diagnostic dilemma with multisystem disease and “Crazy Paving”

No slide submitted

Case Presentation

Links: Lung Case 1a H & E J Davies

Lung Case1b Calretinin IHC J Davies

Josephine Davies

SA Pathology, Adelaide, SA, Australia

An unusual mesothelial lesion presenting as a lung mass

Clinical History:

60 year old female incidental finding of PET avid 21 mm right lower lobe lung mass. Macroscopically a well-circumscribed central hilar tumour. H&E and calretinin IHC provided.

Abstract Mini Oral Presentation

Maeve Slevin

Royal Melbourne Hospital, Melbourne, VIC, Australia

Pitfalls in cytological diagnosis of sclerosing pneumocytoma, a case report and review with histological correlation
