

Our Gold Sponsor

Exhibitor Stands 18 -19

150+ Years of Innovation

As a global leader in anatomic pathology solutions, Leica Biosystems offers the most comprehensive portfolio that spans the entire workflow from biopsy to diagnosis.

Our Silver Sponsor

Exhibitor Stands 10-11

As a global leader in analytical and clinical laboratory technologies, Agilent is committed to helping our scientists bring great science to life. Leveraging more than 50 years of analytical and clinical laboratory expertise, we deliver trusted answers to our customers' most critical questions and challenges. We passionately help scientists and clinicians make the smallest everyday advancements and life-changing discoveries that advance the quality of life.

Our Silver Sponsor

Exhibitor Stands 15-16

Abacus dx, a leading distributor of specialised pathology instrumentation, is thrilled to promote its recent collaboration with Nikon Australia's Healthcare, a global leader in microscopy and imaging solutions. Abacus dx are also proud to connect innovative global suppliers including Cell Marque, Biocartis, ZytoVision, Milestone, Fa-Tech, and HistoCyte with Australasian customers, to meet their anatomical pathology needs.

Our Silver Sponsor

Exhibitor Stand 5

AstraZeneca Australia is part of the global science-led biopharmaceutical company, AstraZeneca. We are engaged in the research, development, manufacture and supply of medicines that aim to make a real difference to the lives of Australians.

Our Bronze Exhibitor

Exhibitor Stand 2

Systemex Australia is an affiliate of Systemex Asia Pacific Pte Ltd which is a subsidiary of Systemex Corporation in Japan. Systemex is a product leader in clinical IVD instrumentation as well as RUO equipment used in industries and research applications.

Our Bronze Exhibitor

Exhibitor Stand 3

At Philips, we look beyond technology to the experiences of consumers, patients, providers and caregivers across the health continuum – from healthy living and prevention to diagnosis, treatment and home care. We unlock insights leading to innovative solutions that address the Quadruple Aim: improved patient experience, better health outcomes, improved staff experience, and lower cost of care. With leading research, design and innovation capabilities, we partner with our customers to transform the delivery of healthcare.

Knowledge and passion

Our Bronze Exhibitor

Exhibitor Stand 4

Sectra is a leader in medical imaging and revolutionised pathology with cutting-edge digital solutions.

Offering unparalleled efficiency, our digital pathology solutions facilitate rapid diagnoses and enhance collaboration among pathologists. By transitioning from traditional microscopy to digital scans, Sectra ensures superior image quality and accessibility, enabling faster and more accurate patient outcomes. Embrace the future of pathology with Sectra's innovative technology.

Our Bronze Exhibitor

Exhibitor Stand 6

Labflow is an Australian software company that provides the next generation of digital tools that enable pathology laboratories to transform healthcare delivery, through seamless integration of bespoke software solutions.

Labflow's digital solutions enable traceability, visibility and workflow automation that allow laboratories to operate more efficiently, increase capacity, minimise human error and reduce expenditure.

The laboratory of the future starts with Labflow.

Our Bronze Exhibitor

Exhibitor Stand 7

Fujifilm's vendor-agnostic Pathology PACS solution **Synapse® Pathology**, streamlines case management through proprietary advances in image digitization and solution interoperability to accelerate pathology-report turnaround. The solution's open, **cloud-accessible architecture** allows customers to select the instruments, **AI tools**, and systems required for their own pathology workflows and use cases, such as clinical diagnosis, research, tumour boards, etc. Synapse Pathology enables pathologists to view images and render diagnosis and collaborate instantly from anywhere so they never have to wait for glass again!

Exhibitor Stand 8

AIS Australian Instrument Services has been established since 1981. The company was initially setup with the sole purpose of providing quality service to the scientific industry and has complemented this with a unique range of quality products. AIS exclusively represents Motic microscopes in the south pacific and including its range of Digital Slide scanners and microscopes.

Our Bronze Exhibitor

Exhibitor Stand 12

At MSD, known as Merck & Co., Inc., Rahway, NJ, USA in the United States and Canada, we are unified around our purpose: We use the power of leading-edge science to save and improve lives around the world. For more than a century, we've been at the forefront of research, bringing forward medicines, vaccines and innovative health solutions for the world's most challenging diseases.

Our Bronze Exhibitor

Exhibitor Stand 17

The Royal College of Pathologists of Australasia Quality Assurance Programs are world leaders in the provision of external quality assurance (EQA) for pathology laboratories.

We offer a comprehensive range of EQA for all disciplines of pathology. The Anatomical Pathology diagnostic survey cases are selected to demonstrate either classical histological features of a disease process, common disease processes observed in routine pathology laboratories or critical disease processes of educational value to pathologists. Our programs are offered in Australia and internationally in over 100 countries. RCPAQAP is committed to providing an efficient and customer-focused service to participants.

Our Table Exhibitor

Table S 1

The Australian Society of Cytology was established in 1969 and is the sole national body whose activities are primarily directed at enhancing diagnostic cytology.

The primary objectives of the Society are to foster an interest in the training, status and conditions of employment of cytologists within the Commonwealth of Australia, to achieve uniformity in the interpretation and reporting of cytological findings, and to advance the knowledge and standards of clinical, diagnostic and general cytology by means of seminars, lectures, case conferences and other activities.

"Advancing the knowledge and standards of clinical, diagnostic and general cytology".

Our Table Exhibitor

Table S 2

"Although there are many excellent sources for learning diagnostic pathology, those directed at residents, fellows, and practicing pathologists, are too simplified to be practical for daily work with diagnostic pathology, and many other texts assume a foundation of more knowledge than many of us have as we begin to learn about a new area of diagnostic pathology.

The pathology survival guides are intended to help not only residents and fellows but also practicing pathologists who begin to tackle an organ system that is unfamiliar to them or refresh knowledge on a particular topic. These volumes are practical, concise, and full of excellent illustrations.

We believe you will find this series useful and easy to read."

Our Poster Zone Sponsor

Sonic Healthcare is an internationally renowned Australian healthcare company providing specialist operations in pathology, radiology, general practice and corporate medical services across Australasia, Europe and North America.

Our commitment to excellence in delivering services to doctors and patients informs every aspect of our company, including our Medical Leadership and people-focused culture that views our staff as our most important asset.

Sonic Healthcare is a proud sponsor of IAP 2024.

Friday's Meet the Expert Microscope Supplied by Evident

Evident Scientific is a distinguished global enterprise operating within the life sciences domain, boasting three integral divisions: Industrial, Microscopy, and Histology. We were formerly an integral part of Olympus, having more than 100 years of history in life sciences. Evident Scientific is committed to making people's lives healthier, safer, and fulfilling, we support to solve their challenges with advance work. For more information visit: www.evidentscientific.com
